### PART III PHYSICIAN SECTION

(To be completed by Physician, Licensed Nurse Practitioner, or Physician Assistant.)

To the Examining Physician:

We need your help! Environmental Traveling Companions runs 7-28 day wilderness Youth Leadership Schools, which are physically demanding. As the applicant's primary health care provider, you know your patient best and most qualified to evaluate the applicant on medical issues. Our courses include the following physical challenges:

- Sea kayaking on the rolling waters of San Francisco Bay
- Rafting on Class III Rapids
- Walking on uneven terrain
- Carrying 40 pound packs
- Living within the close proximity of 14 other adolescents and adults
- Adjusting to high altitude of up to 10,000 feet

Please take sufficient time to do the following:

1. Please review part II- Student History. Check it for accuracy and completeness and make any necessary corrections/additions
2. After conducting your exam, use the space provided to list any currently active medical problems. Summarize any restrictions that you feel are required on an ETC extended wilderness trip especially concerning heart lung and musculoskeletal issues.
3. If you feel any further tests, immunizations, or specialty referrals are required before this summer's ETC trip please indicate in the space provided.

Our central mission is to open the outdoors to as many people as possible so your information will be used as the primary resource for health information as opposed to a method that will preclude your patient's involvement on our trips.

Your time and effort will help ensure the safety for your patient and for all the trips participants.

Many thanks for your help,

-The staff of Environmental Traveling Companions

*Based in the San Francisco Bay Area and offering assessable adventures for over 30 years*
